Finn Slough at high tide just prior to sunrise	f11, 1.0 sec, 120mm, ISO 100
The drawbridge at Finn Slough which provides access to Gilmour Island. During high tide residents going out in their fishing boats have to remove the vertical planks in the middle of the bridge to enable the boats to pass through to the other side in order to exit to the Fraser River.	f8, 1/640, 135mm, ISO 100
Western view of Finn Slough at high tide just prior to sunrise	f11, 8.0 sec, 22mm, ISO 100
A Finn Slough resident tends to her pot plants on her deck in the early morning hour.	f8, 1/640, 55mm, ISO 100
High tide and sunrise over Finn Slough, with the Cascade Mountain range in the distance.	f8, 1/13, 55mm, ISO 100
Virginia, one of the residents, decorates her house with found flotsam and jetsam items that come in on the tide. She recycles as much as she can, reusing wooden beams from houses that have fallen into disrepair.	f5.6, 1/400, 24mm, ISO 100
Residences east of the drawbridge. The brown building on the left is named "Sisu" which means "persistence" in Finnish.	f8, 1/400, 32mm, ISO 100
Sign on drawbridge: Enter at your own risk. Finn Slough was built as a working fishing village (1890) and was not designated as a tourist destination. Please beware (be aware) uneven walking surfaces and other potential dangers. <a href="http://www.finnslough.com">www.finnslough.com</a>	f8, 1/250, 48mm, ISO 100
A couple sits on the deck in the afternoon spring sunshine. The gentleman is sharpening his axes, while his wife enjoys a snack and reads the Sunday newspaper.	f8, 1/640, 145mm, ISO 100
A reminder that the past has caught up with the present, as a Seaspan ferry boat makes an early morning voyage past Finn Slough to one of the harbours on the mighty Fraser River. The fishing boat, Eva, lies moored safely to its dock. Eva is 28 feet long and was built in 1937.	f8, 1/15, 32mm, ISO 100
The Mermaid III fishing boat lies abandoned amongst other debris at high tide.	f5, 1.0 sec, 150mm, ISO 100
The fishing boat, Eva, lies stranded on the mud in front of the Dinner Plate Island School house at low tide.	f8, 1/250, 26mm, ISO 100
The entrance and exit to Finn Slough and beyond the mighty Fraser River that provides a livelihood to thousands of people along its banks. At low tide no boats are able to exit the Slough. Since this is a tidal area, fishermen have to think ahead when the fishing season starts.	f8, 1/40, 24mm, ISO 100
